

[The EMC Blog](#)

[Arturo Mediano](#) - January 31, 2014

Arturo Mediano is a professor at University of Zaragoza (Spain) and founder of The HF-Magic Lab®, a specialized laboratory for design, diagnostic, troubleshooting, and training in the EMI/EMC/SI and RF fields. He is also an instructor for Besser Associates (CA, USA) offering public and on site courses in EMI/EMC/SI/RF subjects. In **The EMC Blog**, he'll provide interesting and useful information about EMI and EMC, including real-world circuits, waveforms, and design/troubleshooting techniques, interesting tools and instruments on the market, as well as EMI/EMC conferences and symposia around the world.
