

Figure 2

```
= IF ( LEN (B2) ; 128 ; 0 ) +  
IF ( LEN (C2) ; 64 ; 0 ) +  
IF ( LEN (D2) ; 32 ; 0 ) +  
IF ( LEN (E2) ; 16 ; 0 ) +  
IF ( LEN (F2) ; 8 ; 0 ) +  
IF ( LEN (G2) ; 4 ; 0 ) +  
IF ( LEN (H2) ; 2 ; 0 ) +  
IF ( LEN (I2) ; 1 ; 0 )
```

The formula (which, in this example, shows cell K2) adds pixel “weights” to obtain initialization values.
