Alcatel-Lucent and Sequans Collaborate on LTE Solutions

Alcatel-Lucent - February 15, 2010

MOBILE WORLD CONGRESS, BARCELONA, February 15, 2010 /PRNewswire/ -- Alcatel-Lucent (Euronext Paris and NYSE: ALU) and Sequans today announced their collaboration on LTE solutions for operators of TD-LTE networks in Asia and Europe who are planning to offer services at 2.6 GHz. The first result of this collaboration in response to this significant demand will be a Sequans 2.6 GHz USB dongle to be used in operator trials in 2010.

"Through this partnership, we are exhibiting our commitment to creating a vibrant LTE ecosystem and to supporting operator goals of demonstrating the value of TD-LTE in delivering advanced services to end users," said Georges Karam, Sequans CEO. "Alcatel-Lucent is an LTE technology leader, already actively involved in some of the most significant LTE deployment projects announced to date and we are pleased to work with them."

Alcatel-Lucent was previously selected by China Mobile to deploy China Mobile's demonstration network at the World Expo 2010 in Shanghai, beginning of May, using Sequans TD-LTE chips and USB dongles at 2.3 GHz.

"We are committed to working closely with operators in Asia and Europe to support their LTE strategies," said Doug Wolff, Alcatel-Lucent 4G/LTE Solutions VP. "Our collaboration with Sequans, a truly innovative and accomplished 4G semiconductor supplier, will yield valuable TD-LTE solutions."

About Alcatel-Lucent and LTE

With 40 LTE customer trials secured to date, Alcatel-Lucent is a worldwide leader in LTE. The company is actively engaged in the majority of LTE projects being pursued by tier 1 operators around the globe. To help operators realize their potential, Alcatel-Lucent is offering a unique, pre-integrated, end-to-end LTE solution and a full set of associated professional services. Alcatel-Lucent's network architecture is based on Alcatel-Lucent unique converged radio access network (RAN) strategy allowing scaling of W-CDMA networks and smooth evolution to LTE. The company also founded the ng Connect Program (http://www.ngconnect.org/about-us/index.htm), a global initiative to drive the development of an open and diverse ecosystem of LTE device manufacturers, content providers and application partners. Through the ng Connect program and with Alcatel-Lucent's end-to-end LTE solution, wireless broadband operators benefit from open innovation, pre-integrated solutions, reduce time to market with LTE-enabled services, and the ability to drive new and non-traditional business models. About Sequans Communications

Sequans Communications is a 4G chipmaker, supplying LTE and WiMAX chips to equipment manufacturers and mobile operators worldwide. Founded in 2004 to address the WiMAX market where it is now a global leader, Sequans has recently expanded to address the LTE market. Sequans chips are inside the world’s leading WiMAX networks and will soon be inside the world’s leading LTE networks. Sequans is based in Paris, with additional offices throughout the world, including USA, United Kingdom, Israel, Japan, Hong Kong, Singapore, and Taiwan.
